

## AUSIPEL-TMS

AUXILIARY  
FOR  
SOFT & BRIGHT LEATHERS

### APPLICATIONS

A prior trial is highly recommended for the setting of product for local environment.

General recommendations are suggested as follows:

- 30-50% calculated on the total amount of fat-liquors applied.
- It can be applied with other fat-liquors to improve the overall penetration, emulsification and bright look of the leathers.
- Due to its versatile nature can be applied for almost all kind of leathers.
- For further details and other uses, please follow the detailed and descriptive literature or consult our representative.

ARAGONA

COMPOSITION	A combination of synthetic oils and emulsifiers
APPEARANCE	Honey Goldish fluid
CONCENTRATION	approx. 85%+- active contents
IONITY	Anionic [its anionization degree being medium and high]
pH VALUE	7.0 +- 0.5
GENERAL CHARACTERISTICS	TMS is a replacement of natural oils with high concentration to get smooth, soft and silky touch; it provides high affinity and heat resistance to leather; however the product is quiet safe for all kind of leathers. Suitable for Fat-free leathers and light weight and fancy articles. It is a very balanced blend of synthetic oils to replace natural oils as to get the specialized articles of fancy and light tones.
PENETRATION	A very balanced stratigraphic distribution of its active components
STABILITY	Electrolyte stable; very good light-fastness and heat resistance, stable in mineral floats. Assessing on 0-5 scale, the emulsions produced by AR.4 show the stabilities to the acidity, hard water, chrome and vegetable tannage.
COMPATIBILITY	Generally compatible with all kind of relevant products in normal processing methods.
DISSOLUTION	Add to compatible liquors in diluted or undiluted form
FATTY SPEW	Tests carried out to check the exudation of fatty spew, it gives normal results at low temperatures and a high humidity degree
LIGHT FASTNESS	The leathers treated with TMS would have a remarkable lightfastness on the gray scale
FEEL & TEXTURE	TMS gives a bright, natural and rich look
DYEING INTENSITY & TONALITY	It does not degrade the colour of the leathers dyed and fatliquored with the combination of TMS; on the contrary, it gives excellent shade cleanliness and does not give any variations
RESIDUAL BATHS	The residual fatliquoring bath with TMS have a very high exhaustion degree
PACKING	150 kg plastic drums
STORAGE	One year under normal conditions
SAFETY	Standard safety measures to handle the product

### Important notes

All above information provided are as per our laboratory standard tests and checked values are correct. However, it can not be taken as warranty or guarantee for results of application. Please, it is advised to the user to apply the product for particular purpose as per actual conditions. The company shall not be liable for any kind of damages and shall not accept any kind of liability and loss due to any kind of reasons. Under variable conditions the product may behave differently; it would be advisable to make trial set under applied circumstances or consult our authorized technologist to
